PROFILE SUMMARY

- A proficient Full Stack Developer specializing in the MERN stack (Node.js, Express.js, React.js, MongoDB and PostgreSQL), with a focus on building responsive and user-centric web applications.
- Proven expertise in AI integration, demonstrated through developing applications like Taskaify and Trendwise, along with strong skills in web performance optimization and cross-browser compatibility.
- Experienced in creating scalable, efficient, and well-documented solutions using advanced tools like Docker and Git, with a solid foundation in UI/UX design principles, enabling effective collaboration with design teams.
- Committed to delivering high-quality, full-stack solutions by leveraging a strong academic background and relevant professional certifications in web development.

RELEVANT SKILLS

- **Front-end technologies:** HTML, CSS, TailwindCSS, JavaScript, TypeScript, ReactJS and Next JS
- **Back-end technologies:** NodeJS, ExpressJS and REST API
- **Database:** MongoDB
- **Designing tool:** Figma
- **Version control tool:** Git
- **DevOps & AI:** Docker, AI Integration and Prompt engineering

PROJECTS

- **Taskaify** | [Live](#) | [Code](#) (July 2025)
 - Developed a productivity platform with Next.js, Node.js, Express.js and MongoDB, featuring AI-powered dynamic task generation using Google Gemini.
 - Enabled real-time task and subtask management, category organization, and progress tracking.
 - Integrated a modern, responsive UI with Radix UI and Tailwind CSS for seamless user experience.
 - **Utilized:** Tailwind CSS, TypeScript, Next.js, Node.js, Express.js, MongoDB, Firebase Auth, Gemini API, Docker
- **Trendwise** | [Live](#) | [Code](#) (June 2025)
 - Developed an AI-powered blogging platform with Next.js and Node.js, featuring automatic generation of articles about trending topics.
 - Implemented secure user authentication, commenting, and admin controls for content management.
 - Integrated real-time SEO optimization and dynamic article search for enhanced discoverability.
 - **Utilized:** Next.js, React, Node.js, Express, MongoDB, Mongoose, Docker and AI Content Generation
- **LearninGo** | [Live](#) | [Code](#) (Nov 2024)
 - Developed an AI-powered e-learning platform with React and Node.js, featuring dynamic MCQ generation.
 - Integrated real-time leaderboards for user competition and progress tracking.
 - **Utilized:** Tailwind CSS, ReactJS, NodeJS, ExpressJS, MongoDB and Gemini API.

EXPERIENCES

- **Front end Developer Intern** | Uzence (Aug 2025 – Present)

Developed reusable UI components to improve design consistency across the product suite while ensuring accessibility, responsiveness and scalability. Collaborated closely with designers and developers to create innovative, user-friendly interfaces.
- **MERN Developer Intern** | UptoSkills | [Certificate](#) (Nov 2024 – Feb 2025)

Implemented 15+ features across multiple projects, resulting in increased user engagement. Successfully resolved 10+ critical bugs ahead of deadlines, contributing to improved application stability and user experience. Collaborated on a team to deliver high-quality projects.

EDUCATION

- MCA | Lovely Professional University (Punjab, India) CGPA: 7.52 | 2024
- BCA | Govt, Bangur PG College (Rajasthan, India) Percentage: 86.23% | 2021

CERTIFICATIONS

- **Web Development** | Internshala | [Certificate](#) (Feb 2024)
- **UI/UX Design** | Internshala | [Certificate](#) (Oct 2021)
